in joseph-brighter-53607a176

Data Analyst with 5 years of professional experience leveraging quantitative methods, advanced SQL, and Python to transform complex datasets into actionable operational insights. Possesses a strong academic foundation in Computer Science and Mathematics, complemented by dual Google Data Analytics certifications. Proven track record of optimizing relational database queries, automating data ingestion pipelines, and auditing LLMs and datasets to drive business efficiency and system performance.

Technical Skills

- **Data Analysis & Statistics:** Quantitative Analysis, Exploratory Data Analysis (EDA), Statistical Modeling, Hypothesis Testing, Regression Analysis, Data Cleaning & Preprocessing.
- **Languages & Querying:** SQL (PostgreSQL, MySQL), Python (Pandas, NumPy, Scikit-learn), R, Bash, HTML/CSS.
- **Visualization & Tools:** Tableau, RStudio, Excel, Git/GitHub, Jira, AWS, Docker.

Professional Experience

Data Annotation Tech **Philadelphia, PA**
Software Engineer - AI Trainer *Jan 2026 – Present*

- Audited and evaluated Machine Learning and LLM outputs, ensuring high standards for data accuracy, relevance, and consistency.
- Applied edge-case scenario testing in Python to analyze LLM reasoning quality and identify data anomalies.
- Leverages development skills to build data sets to support supervised learning pipelines across multiple programming logic models.

Comcast Corp. **Philadelphia, PA**
Software Developer II *April 2022 – Nov 2024*

- Built automated data parsing pipelines in Python to ingest unstructured log data from hardware devices, converting raw data into actionable insights for engineering leads.
- Profiled and optimized relational database queries (PostgreSQL), reducing query latency and scaling data infrastructure capacity **by 500%** (from 50 to 300+ concurrent active users).
- Maintained internal data-driven tools and services using Python and Django to streamline cross-departmental operational workflows.

QuestUni LLC **State College, PA**
Lead Developer & Co-Founder *April 2020 – Jan 2022*

- Conducted **EDA** on survey data, and developed a data-driven algorithmic matching system that analyzed user interaction patterns, resulting in a **25% increase** in research engagement.
- Designed and managed relational database schemas (MySQL) for a research engagement platform, improving data access speed and reliability.
- Managed cloud data hosting on AWS, establishing data integrity, backup protocols, and secure system access.

Education & Certifications

Pennsylvania State University **State College, PA**
B.S. in Computer Science and Mathematics *Aug 2017 – May 2021*

Google Advanced Data Analytics Certificate *Issued 2026*
Advanced Python statistical modeling, predictive regression models, and machine learning pipelines.

Google Data Analytics Professional Certificate *Issued 2025*
Data cleaning, structured SQL querying, EDA, and R programming.
