in joseph-brighter-53607a176

Results-oriented Software Developer with 5 years of professional experience in enterprise environments of varying technologies. Expert in building scalable full-stack architectures using Python, Django, and SQL. Proven track record of increasing system capacity by 500% and automating complex workflows to drive operational efficiency.

Technical Skills

- **Languages & Frameworks:** Python (Django), C/C++, SQL (PostgreSQL, MySQL), Node.js, Bash, JavaScript, R, HTML/CSS, C#, .NET, JQuery.
- **Tools & DevOps:** Docker, Git/GitHub, Jira, AWS, Azure, CI/CD Pipelines.
- **Data Engineering:** RStudio, Pandas, NumPy, Scikit-learn, Data Visualization (Tableau), EDA.

Professional Experience

DataAnnotation Tech

Philadelphia, PA

Software Engineer - AI Trainer

Jan 2026 – Present

- Provide expertise in software tools and languages such as **Python**, **JavaScript**, and **C++** to create data for training AI and LLMs.
- Validate AI models by generating high-quality annotated datasets, ensuring accuracy and relevance for machine learning applications.
- Test LLM limitations by creating edge case scenarios and analyzing model responses to identify areas for improvement in AI reasoning and response quality.

Comcast Corp.

Philadelphia, PA

Software Developer II

April 2022 – Nov 2024

- Architected and maintained internal software tools using **Python**, **Django**, and **PostgreSQL**, serving as the primary backend developer for internal services.
- Optimized application logic and database queries to scale infrastructure support from 50 to 300+ users (a **500% increase** in capacity) while maintaining sub-second response times.
- Engineered automated scripts to parse and analyze complex logs from embedded software devices, transforming raw unstructured data into actionable debugging insights for firmware teams.

QuestUni LLC

State College, PA

Lead Developer & Co-Founder

April 2020 – Jan 2022

- Led the end-to-end full-stack development of a student research service website, utilizing **Javascript** and **MySQL** to create a responsive and scalable user experience.
- Designed and managed the core database schema, implementing a matching service that increased research engagement by **25%**.
- Directed the technical roadmap, from initial MVP design to cloud deployment on **AWS**, ensuring high availability and data security.

Education & Certifications

Pennsylvania State University

State College, PA

B.S. in Computer Science and Mathematics

Aug 2017 – May 2021

Google Advanced Data Analytics Certificate

Issued 2026

Advanced Python libraries for statistical modeling, regression, and machine learning.

Google Data Analytics Professional Certificate

Issued 2025

Foundational training in data cleaning, SQL analysis, and R programming.
